2. PRODUCTS

3. EXECUTION

If you have pre-customised this work section using the "questions and answers" provided as part of the downloading process, it may be necessary to amend some clauses to suit the final project-specific version.

The section must still be checked and customised to suit the project being specified, by removing any other irrelevant details and adding project-specific details and selections.

This section relates to the supply and installation of PBI Height Safety Ltd permanent safety access systems required for routine maintenance and servicing activities on buildings.

Hover over the Contact button to reveal Work Section Support. Select this option. This will bring up the support request.

5

7938PB PBI Fall Protection Systems

What support would you like with this Work Section?

Choose from the options offered by this Supplier.

REPLACE

The Supplier will write a replacement Work Section. You will be able to preview then import that, fully replacing your current Work Section.

EDIT

The Supplier will edit the Work Section. You will be able to preview then import that, fully replacing your current Work Section.

COMMENT

The Supplier will append comments to clauses in a cloned copy of your Work Section.

Select Replace, add any additional notes and Submit Request

Alta Safety receives this request and will complete the Work Section to align with the mark up that is being produced for you. Once completed, the Work Section will be submitted back to you in Masterspec – you will also get a message in your Masterspec inbox. A courtesy email will also be sent with the completed mark up.
